AND THE DRAGON WILL HAVE POWER OVER THE SAINTS

In 1978 I was asked by Lt. Gen. Harold R. Aaron, Deputy Director of the Defense Intelligence Agency, to hang up my uniform and go in search of U.S. Prisoners of War. My search should have ended in May 1979 when I returned to the USA with living proof of American servicemen being held by the Communist in Southeast Asia. A North Vietnamese prison guard, Nguyen Nok Giang, reported 47 American POWs at Tan Lap Prison, along the Red River, north of Hanoi. He had personally buried three of them just months before. He was willing to have his story confirmed by polygraph and accompany us to the camp. A CIA pilot friend (Robert Moberg) in Thailand would have flown us low level in an unmarked C-47 and dropped us (myself and a Delta Team member, Jimmy Untalan) into the jungle near the prison. Upon freeing one or more Americans we would have flown out in inflato-planes to a pick-up site in Laos. Moberg would be there with a helicopter to lift us out to Thailand.

H. Ross Perot called DIA Director, General Eugene Tighe, in my presence, and said he wanted DIA to bring Giang to the U.S. for interrogation before we launched a rescue. Tighe wrote a memo to Secretary of Defense Harold Brown. In less than seven days, Brown forwarded the request to Secretary of State Cyrus Vance asking that one refugee with first-hand knowledge of U.S. POWs be brought to America for confirmation of his story. Vance took more than a month to turn down the request. Jimmy Carter didn't want to be bothered with a burden of missing American servicemen. The Dragon wasn't overseas wearing a hammer & sickle, he was in our nation's Capitol sheathed in stars & stripes.

I continued the search. The following April, I launched patrols across the Mekong River to check out a dozen CIA sightings. One patrol returned with news that 30 Americans were being held in east-central Laos at Nhommarath. A flash request was made for an SR-71 Blackbird mission to confirm the presence of U.S. POWs. The down-graded priority finally found its way to the NSA-NRO where in November 1980, a satellite with some time left on its cameras was positioned over the target. The results shocked U.S. leadership. There were 30 "non-Asians" by measurable shadow in a prison compound and a figure "52" configured to be discernible only from the air. It was a standard recognition signal -- Americans were present! Ronald Reagan was briefed even before his inauguration; he would rescue them using Delta Force! In a classic replay of the bombers being turned around at the Bay of Pigs, the raid was exposed in the Washington Post and

canceled. The Adversary still reigned Washington, D.C.

I continue the mission. Our POWs were relocated in a cave complex. I organized a rescue party using a Laotian guerrilla faction. We launched across the Mekong in 1983 with the intention of bringing something home DIA couldn't lock in a file cabinet. We didn't plan on the State Department's Voice of America. At 7:00 P.M. on the eve of our attack, the United States Information Service broadcast: "Green Beret Commander Bo Gritz is leading 18 American Special Forces in a raid to rescue U.S. POWs at Nhommarath and Seppone. "Again, we had been thwarted from accomplishing something righteous. Repeated other rescue attempts followed. Each time the Destroyer rode the waters of the Mekong and our brothers were prevented from crossing its depths. Finally, in February 1992 a deal was struck between Washington and Hanoi to bury all captive Americans in exchange for economic favors. The Devil had won.

When our mission was revealed in 1983 the Communists massed extensive ground and air combat units to include Vietnamese Special Forces to capture us. The U.S. Ambassador in Thailand was called to Vientiane, Laos and told that when they apprehended us, we would be summarily shot as war criminals. Red River Dave wrote the Ballad of Bo Gritz which he sang at Disneyland's Knoxberry Farm -- how we had died trying to bring our brothers home. Hollywood producers bugged my wife for movie rights. We were written off as "acceptable losses." Of interest is the fact that ASA (Army Security Agency) listening posts were told that it was "life and death" that they keep our position pinpointed as we worked our way 100 miles back toward the Mekong. Did our own NSA/CIA pass information to our pursuers? It was a miracle we were able to breakout of the encirclement and slip across the mile-wide river without falling into enemy hands (on both sides).

I was held in prison a short time until a way was worked out for the Thais to save face. We returned home the last of March 1983 awash in international misinformation about U.S. POWs in Communist Asia. For the first time in history, a second flag, the black and white POW-MIA banner, was raised over the White House just under Old Glory. President Ronald Reagan declared U.S. POW Day and elevated their plight to "top national priority." Ever since our return, veteran groups have gathered themselves around the Vietnam Memorial (The Wall) and across America in remembrance of our missing brothers. Our POWs aren't forgotten.

We had been beaten by elements in our own corrupt government who couldn't afford for U.S. POWs to come home. They had been hard at work using their high offices to accumulate illegal funds through guns and drugs that allowed the Executive to bypass Congressional purse strings. My book, CALLED TO SERVE, and the video, NATION BETRAYED, documents this great American tragedy in detail. A few of us had tried to do what world government would not. We left our families to find and free helpless innocence.

On the last day of September of this year my son, Jim,

and I were arrested in Suffield, Connecticut on a variety of charges including Attempted Kidnapping in the 1st Degree. No question, my intent was to help a Mom safeguard her two young sons from Satanic sexual abuse. As Spikers, CFA subscribers, listeners to FREEDOM CALL, friends and Americans, you should know exactly what happened and why. As you will read, the dragon still has power over the righteous -- but, God be praised, not for too much longer. Together, with God's help, we can defeat him.

BO GRITZ - KIDNAPPER?

The first sign that four year old Ben was being sexually abused was a comment to his Vermont pre-school teacher in January 1993: "My daddy makes love to me." Subsequent investigation by government and private medical authorities concluded in writing that Linda Wiegand's husband, Tom Wilkinson, had sodomized and raped both Ben (4) and Jon (7). Criminal charges were filed. Wilkinson countered by securing a fanatical Hartford, Connecticut male-advocate attorney, Louis Kiefer, who arranged a custody order from a friendly local judge, Barall, despite letters from investigators in three states, including Harvard Medical, urging him against the action. Linda, fearing the worse, abandoned her home and possessions and fled with the boys to settle anonymously in Las Vegas, Nevada. Linda was declared a fugitive, and upon urging from Kiefer, Vermont dropped the child rape charges against Wilkinson. July 3, 1996 the FBI arrested Linda and for the first time turned Jon and Ben over to Wilkinson who moved them to his sister's house in New York.

Out on bond, Linda presented her case for custody in New York with assistance from knowledgeable child abuse experts in Vermont, Massachusetts, New York and Connecticut. Judge James D. Pagonis signed an order on 21 August 1996 giving Linda sole custody of both her natural sons. Wilkinson rushed the children back to Connecticut. Linda and a Child Advocate, Stacey Nicotera, from Hartford Interval House, presented the order to the Suffield Police Department for enforcement on 22 August and were summarily turned away by the Police. A letter of complaint to Police Chief Robert Williams resulted in no action.

Linda had been working through Nebraska attorney John DeCamp to finalize custody of her children. DeCamp told her (confirmed by me) it would likely be 18-30 months before she could expect court action. Desperate, Linda faxed me information and I featured her as a Talk America Radio guest on 16 September. She wanted to meet and show me her documentation. I arranged to see her as part of a Boston trip on 26 September following Spike Airborne in Tennessee. Her information is voluminous and compelling. I took her to a noted

attorney for advice. It was decided that proper media exposure could provide the catalyst to expedite court action. Seeking help from media insiders, press releases were issued to all major outlets -- with little effect. Considering who owns and controls news in America, the implication of child sexual abuse with Satanic overtones and webs to Connecticut Law & Order was more than networks and newspapers were willing to deal with.

My evaluation showed only three personal courses of action: 1) Return home, leaving Linda and the boys to their dilemma. 2) Break the law, kidnap the children, and doom the family to an underground life. 3) Do what ever was required to elevate this issue to a national level in hope that public outcry will see the children safe from further harm. Breaking the law, and doing nothing were equally unacceptable. Linda had repeatedly

reported Suffield Police and others following her car, stalking her, harassing her on the telephone. The boys had testified to authorities and drawn pictures of Wilkinson cutting himself and dripping blood into a chalice containing a Satanic likeness. They cited despicable instances where both Tom and their Aunt Karen Nutter sexually abused them in ways unimaginable to normal people. Linda says both

Wilkinsons are active in

ANTHROPOSOLOGY, a Satanic worship fraternity whose emblem is a statue of Lucifer holding up a child. Linda believes there is a cultic connection between Wilkinsons, Kiefer, the Suffield Police and Enfield Court. I decided to test her suspicions.

Jim and I borrowed Linda's car on 30 September to look at a 1955 Chevrolet being offered for sale by a private owner. We were scheduled to meet a broker at the Suffield High School at 2:00 P.M. I was interested in buying the car for my 17-year old grandson, James. Jim would have driven it back west. Immediately upon entering the school parking lot, Suffield Police stopped us. Without a hint of interest in our explanation we were arrested and incarcerated on \$1-million bond each. While it was my intent to elevate the issue through over-reaction by the Suffield Police, it was not at that time, place, or circumstance. I must conclude from my short but intense investigation, including a conversation with the Suffield Chief of Police, that Linda's misgivings are more than paranoid disillusions. They had acted to permanently remove me from the equation.

Several facts are obvious: Competent authorities from the Vermont State Attorney and State Police, the Stowe Police Department, Social Services, and Lakewood HealthCare; plus the Harvard Medical Center at McLean Hospital, Massachusetts; New York Dutchess County Social Services, Judge Pagonis; and Connecticut Hartford Interval House, all felt strongly enough about this case to put their opinions in writing supporting Linda Wiegand's determination to protect her two sons from further rape and sexual abuse. How is it possible that the enormity of

evidence and expert conclusion from four states, and judicial decision in New York, is blunted by one Hartford attorney, a family judge and local police chief?

Stacks of drawings by both Jon and Ben show devilish figures. Jon stated to therapists that he is a "soldier for the Satan" and "hates God." Can you imagine how two small boys raised by a Christian Mom would feel when forcefully separated and left to be ravaged by a Satanic cult? Even as a man, supersaturated with the horrors of war, I almost gave up on God until I realized the atrocity was our doing, not God's. At that time God also allowed me to see that "Innocence must suffer if the guilty are to be punished." I can relate to how Jon and Ben must feel -- and Linda too.

Drawings and testimony show graphically how the boys were violated by Tom and forced into sexual depravities by their Aunt Karen. Additionally, little Ben tells how Tom made him watch small animals being killed after being told they were him -- if he ever told anyone. Ben gave one of his sketches to a therapist with the comment: "I want you to keep this so you will always remember what I have told you." How would you feel? What would you do? Who would you pray to? Do you see how desperate Jon, Ben, and their Mom, Linda must be? One of our Spikers from the Denver area called me to share a very personal experience. He was sexually abused by his grandfather. He became an alcoholic and was 47 years old before he was able to come to grips with a despondency that was never his fault. All such violation of children is devilish, but how much worse off are little ones at the hands of a Satanic cult? Today and every day you should thank God that what has happened to these three innocent souls isn't happening to you and yours.

A pending judicial matter accepted by the State Supreme Court in Hartford on 16 September 1996 pertaining to corruption within Superior Court involving both the chief court administrator and the chief administrative judge of the court's family division may shed light on an area devoid now of understanding, logic, and justice. In the meantime Jon and Ben remain in the custody of a man and woman (the Wilkinsons) who they say sodomize, rape, threaten, and abuse them. What will you do to help them? **The Connecticut Attorney General is Richard Blumenthal. His number is: 860-566-3579.** Will you call him and pray that he investigates this case? In Connecticut the AG handles all child protection cases. Blumenthal's FAX is 860-566-1704. His mail address is: 55 Elm Street, Hartford, Connecticut 06106. Jon and Ben are helpless. They depend upon their Mom to lift them out of their hell. Linda has done everything humanly possible. Hopeless, she called upon me. Jim and I have positioned ourselves within the Connecticut system where media pressure can be applied to bring justice to the Wiegands. We now appeal to you. Together, we can see the boys returned to their Mom while they are still alive.

On October 17, the HARTFORD ADVOCATE printed a five page cover-story showing a photo of me at Ruby Ridge with the banner headline: "CONSPIRACY OF HATE." The article is rife with lies and mis-characterizations. Without ever contacting me for comment, I am referred to as a racist, government hating, KKK, neo-nazi, bigot, anti-Semite. The man

responsible is Russ Hoyle. His address is Hartford Advocate, 100 Constitution Plaza, Hartford, Conn 06103. His telephone and fax are 860-548-9300 and 548-9335. He says he will print a retraction if facts to the contrary are offered. My attorney will contact Mr. Hoyle. I ask that everyone of you who know me please contact him with the truth. Hoyle says if it were not for me no one would know of the boys problem. 155 TV stations have aired my comments. There is little doubt in my mind that the battlelines are forming in accordance with Ephesians 6:12. Evil is quick to come together, whereas the righteous avoid involvement.

Jim and I must appear in Connecticut Superior Court, 111 Phoenix Ave., Enfield, Conn. at 10:00 A.M. on 29 October to enter our plea of NOT GUILTY. We will also file a suit for false arrest. We need your presence in the courtroom. We need your help to pay travel and attorney fees. Please send all donations to Bo Gritz, Box 308, Kamiah, Idaho 83536. You may call 208-935-2918, or 935-1325, or fax 208-935-1328 for more information. If you have airline frequent flyer miles that can be applied toward our travel from Idaho to Connecticut, or any ideas on how best to win this case and see the boys safe, please contact me immediately.

Linda Wiegand now has a New York attorney, Anthony Colleluori willing to file a federal lawsuit which could be the news peg the media is waiting on to pursue this story. The problem: he needs \$15,000 up front to start -- how much justice can you afford? His number is 516-249-6020. I have guaranteed payment praying I'm not alone in commitment to the children. Linda tells me that John DeCamp was given \$27,000 in cash and now has her jewelry and gold worth another \$20,000. The Problem: DeCamp is working on reducing Gordon Sellner's Montana life plus 10-year prison sentence and won't give it back.

Recall that Sellner is the man that Jack McLamb and I tried to help. Sellner fired at a Deputy Bob Parcell during a stop back in June 1992. Parcell wanted to ask Sellner, as a witness, about an assault. Sellner thought it was the IRS come for him and fled. Parcell yelled for Sellner to halt and fired in the air. It isn't proper protocol to fire at a fleeing witness. Sellner was within his rights to shoot back in self-defense. Parcell wasn't hurt. Had Sellner allowed Jack and myself to help him he would have gone free. A SWAT team shot him in the throat and captured him earlier this year. His sentence was pronounced on 16 October. Sellner is 57. I grieve for his wife, Roberta and their family. Gordon's paranoia and poor judgment brought about this tragic self-fulfilling prophesy.

Unfortunately, John DeCamp seems to have his priorities reversed. He chose to back a major loss in Sellner rather than serve a good cause with Wiegands. Sellner refused help when it would have done him and his family some good. Sellner doesn't deserve life in prison, but his aggravated sentence was brought on by his stubborn refusal, ALA, Montana Freeman, to use the system to win a battle for us all. In both cases good men will have their lives reduced while hurting the Patriot cause. If DeCamp has \$47,000 of Linda's money, his focus should be on filing state and federal motions to free Jon and Ben!

Linda says she has family friends who have \$3-million in the bank, but they won't help because they "have to live off the interest." Craig Smith, who loaned me \$100,000 bond money from his company pension funds at interest, has come up with a great idea. His publicist has set up a toll-free telephone number, **888-208-0638** where you can contribute using credit cards. This allows you to make a contribution now, when it counts the most, and pay for it over an extended period. Do we all understand why the Bible tells us that it is easier for a rich man to go through the eye of needle than enter into the Kingdom of Heaven? What about you? Could you help? Will you?

As in Vietnam, I prayed to Almighty God to know why? WHY? Why would two little boys be left to the ravages of the beast and his minions? Does God hear our prayers, the pleadings of a Mother, who carried them in her womb, birthed them, suckled them, cared for them, and would suffer her liberty and life be taken that they might be free. As in Vietnam, God is patience with me. As the Almighty, our Father in Heaven knows what we do not. It isn't often, in my case, but when He allows His Holy Spirit to impart light and knowledge, it thrills my soul and fills me to overflowing with renewed faith and love. We tend to see things through a very narrow and personal viewpoint. God's Will is clear if we would just open our eyes to see. Louis Kiefer in his typical fashion has threatened to sue me for these comments. His signature shows the marks of a troubled person. Next the prosecutor will probably offer to drop charges against Jim and me if we will turn states evidence to convict Linda Wiegand -- NOT!

How many little children do you think are being sexually tortured in America today? If in the course of the plight of Jon, Ben, Linda, Jim and Bo Gritz, America's awareness might be shaken unto repentance so that others might be spared, our troubles will have been a labor of love. Do you not see the good and Grace to be had? And if America is deaf, blind and dumb to what is right, then hasn't there a witness been given? Is there a single reader that doesn't know that in the end times witnesses, loyal to God, who seek His service, will be called to lay down their lives that His truths might be known?

I have no way of knowing the earthly outcome of Linda Wiegand, her boys, me and my son, but I do know that we prayed for God's Will to be done, and I know that He hears and answers my prayers. I know of a certainty that those who die in Christ will be raised again and come forth in Celestial bodies to be with Him during His reign of peace for 1,000 years upon this earth. God can preserve us as He did Shadrach, Meshach and Abed-nego (Daniel 3), or we may be laid waste, but in the end we are His through all eternity and throughout all generations of time. Don't worry beyond your means about Linda or her sons, and certainly not about two strong and healthy men. Concern yourselves about your own salvation and how well you measure

up to God's expectations. What do you honestly believe He expects of you in this situation? Are you a Samaritan? Judge for yourself -- and may God Bless you in your charity.

In considering our Prisoners of War, the Weavers, and Wiegands, I want you to remember two Scriptures. First is Matthew 18: wouldn't you leave those secure to go in search of the helpless? Second: Revelation 13:10 and 14:12 refers to the "patience of the saints." This last should be first as we consider current events and what is to come. "He that leadeth into captivity shall go into captivity: he that killeth with the sword must be killed with the sword." Don't you know that someday there will be true justice where judges are not cloaked in black. Who do you think will be chained and descend into the pit? It is right that we "defend" our homes, family, and way of life, but we must not attack -- this is the patience of the saints. The Governor of Connecticut is John G. Rowland. His address is 210 Capitol Avenue, Hartford, CT 06106. Telephone: 860-566-4840.

Pertaining to the Satan worshipers and their invokements of evil upon me, Jim, Linda and her sons, I offer them my prayer to Almighty God through Psalm 109: 17-20! Thank You! Many of you are praying and fasting for us. May God Bless You.

PRISON PRACTICES

Jim and I were exposed to city, county and state level "correctional" procedures as we were processed through the Suffield, Conn. jail to Enfield and ultimately the Hartford Correctional Facility. The individual jail cell (5' x 8') was clean but inmates are denied reference to sunlight and time. Constant bright lights and video prevent any privacy. In our case the system also keyed on sleep deprivation. We were arrested, cuffed, chained, and transported at 2:30 P.M. Administrative processing (prints, photos, forms) were delayed until after midnight. In my case, I refused to fill out data sheets, provide information, or sign forms. I did allow my photo and prints to be taken. My comment to their requests was that they had arrested me and I wasn't going to help them. Their rejoinder was that my failure to cooperate would be noted and it "will go hard for you before the judge." Enfield was a filthy tank. The prosecutor had ordered our individual bail at \$1-million each; reduced by the judge to \$50,000 each.

Our bond appearance was marred by court prejudice. The judge accused Jim of possessing a firearm at the time of our arrest. The weapon listed was actually a regular 4-inch Spyderco folding pocket knife. When challenged, the prosecutor described it as a "sophisticated switch-blade." The judge accused me of having a photo of the boys in the car along with a school schedule. There was a sealed box in the backseat, but no photo. The States Attorney then accused me of being a disgrace to the uniform of the United States. It was obvious that everyone on our side of the bar considered us guilty without trial by jury. Our feet were manacled so that only half-steps were possible. We were cuffed with arms crossed and jammed into an "ice cream truck" for transport to Hartford.

Fifty prisoners waited sitting on the floor in a small room for hours to be processed. Finally, Jim and I were called. The personal effects seized at our arrest were surveyed. All

money was forced down a pipe and receipted for. We were then stripped searched in front of female employees, told to take a shower, and given ill-fitting khaki trousers, green T-shirt and two sheets, followed by more forms, prints and photos. We were then taken to the dispensary for a TB and AIDs test. At about midnight Jim and I were assigned to separate dormitories. The open windowless dorms contain more than 100 inmates separated by bunkbed placement into 10-man areas. A single guard station is located at the doorway. My bunk was at the far outside end, an area occupied by "Bloods."

Next morning the boys gathered around to evaluate the new "fish." It took less than 10 minutes for me to be transferred to solitary when I started teaching Swahili to a most enthusiastic gathering of young Black Americans. When I asked why the switch, the guard said it was for my personal protection (they also moved Jim) -- I suspect they were concerned that we might organize and unify the prisoners. Upon eventual release, no money was returned. I was told to bring my receipt to the administrative offices in five working days for a check! Jim and I came out after more than three days without a cent between us. Fortunately, Jerome Burr, my medic in Vietnam, was there to open his home to us. Jerry and I both realized that we had come full circle. I used to be the one to bail them out of trouble!

THE DAY AMERICA DIED

The day America died, I was a young Special Forces Captain teaching guerrilla warfare at the Special Warfare School, Ft. Bragg, North Carolina. I had returned from lunch and was preparing a presentation on assassination. My secretary, Carol Smith, was listening to music on her AM radio when we heard that President John Kennedy had been shot in Dallas. We were stunned! Sobbing, Carol walked the few steps to where I stood rooted in disbelief. It was more than my mind could fathom. We had been through so much with JFK: Khrushchev missile stand-off, withdrawal from Vietnam, space race, soft-on-Cuba, firing CIA Director, Dulles. Kennedy had come to Fort Bragg, awarded us the Green Beret, and in the same breath left us to be traded for tractors at the Bay of Pigs. Yet for better, or worse, he was our President and to murder him wasn't right! A CIA shooter team had been formed to kill Castro. Made up of Agency, Mafia, and former U.S. Marine contract sharpshooters, the unit trained for murder in a secluded spot east of Mexico City. They never fired a shot at Castro, but assassinated the President of the United States.

CIA operations are highly compartmentalized for security purposes. Only a scant few understand the entire operation and not even the top case officers and executives know who turns a plan into an order for execution. Deep within the Clandestine Operations section a deputy director initiates a series of time coordinated actions that by themselves are like fragments of a mosaic, but together form a monstrous depiction. There is always a diversion, sometimes very complex, to deflect attention from the actual execution. Those performing the "wet work" must be transported secretly and unmolested into and out of position. Their tools must be disposed of. Security corridors

must be established; arrangements must be coordinated to render the target vulnerable; a C-cube (command, control, and communication) center must be established. Cutouts insulate decision makers from mechanics and auxiliary support personnel. Executive direction must steer follow-up investigations astray. Plumbers remain behind to clean-up messes and prevent leaks.

Oswald was the decoy; Secret Service supervisors diluted security; a famous survivor of the Philippines ran the C-cube; Dulles gave the order; the shooters did their job; Nixon stood by in Dallas; agents within the Police Department isolated the scapegoat; Hoover orchestrated the investigation; Ruby eliminated the risk, and was himself erased; Johnson misdirected the Warren Commission, but the ground remained stained with innocent blood -- the blood of a heavenly kingdom come to earth! America changed. Prior to the murder of JFK, America excelled over the world's nations in every enviable category from educational excellence to church attendance. As the President was buried, America began a decline which deepens daily with the lack of justice throughout the land. It matters not that John F. Kennedy was a womanizer, he was foremost the leader of the world's greatest nation. Those responsible for his killing were never brought to justice. America is cursed until cleansed.

Before Kennedy was killed, America ranked first among nations in all things desirable. Almost immediately after his assassination we went off the charts in all areas pointing to a failed nation: teen age suicides, illegal narcotics, child abuse, high school drop out, et al. There is no way to compare America's moral standing before the murder of JFK with the pit we are in today, but a measurement has been made by Fordham University (NYC,NY) with where we were 10 years later (1974) as compared to 1994. Considering 1974 to be a base level of 100, America's 1994 social health report is a dismal 37.5! Wide spread teenage pessimism and family-community failure are considered top reasons for the fall. It was announced on 16 October that America had another dubious honor. We now have the largest percentage of poor children of any industrial nation (21.5%) while Finland (former Soviet state) has the lowest rate with just 2.5%. America also ranks last in action to improve the fate of our children. Of course by killing Kennedy, Bell Helicopter lost 5,000 birds destroyed in Vietnam. Huge companies like RMK and BRG made billions. Today Ford is bigger than Turkey and Saudi Arabia, Wal-Mart has more assets than Israel and Greece, GM exceeds Denmark and Thailand. More than half of the world's largest economies are corporations, not nations, according to the Institute for Policy Studies in Washington, D.C. Mitsubishi has annual sales exceeding \$180 billion per year!

SIGN POSTS: OLD GLORY DOWN, CHIPS UP, CHURCHES OUT

Right after the Bay of Pigs failure, the USG packed me off to Washington, D.C. to learn Swahili. I settled into an apartment on South Capitol Street hoping it wouldn't be "ground-

zero" as Kennedy and Khrushchev squared off over missiles in Cuba. Each morning I boarded the bus downtown to the CIA contract school. At some point enroute the bus would fill and I would surrender my seat to a lady. One day, as I arose for an elderly sister, a full-bodied female standing behind me challenged a man seated to her front: "Why don't you offer your seat like he did?" The man's terse response foretold of a changing America: "Lady if you're gonna work like a man, you're gonna stand like a man!"

I attended an old traditional Southern Baptist military school where Bible study was mandatory. As a "rat" I scrubbed toilets and plumbing with a toothbrush, brightened pipes with Brasso, waxed and polished floors with buffers made from wool blankets. We ate square meals, moved at the double, walked punishment tours, separated starched uniforms with a bayonet, kept our chins in, backs straight, hair short, and minds clear. Why, I thought, as females fought for entrance, would any woman want to wear trousers, act, and be treated like a man?

First, it was our U.S. academies, then the great conservative leadership institutions of the South, i.e., South Carolina's Citadel and Virginia's VMI. The uni-sex movement of alternative life-styles invaded our ships at sea, "all you can be Army," and military cockpits. It was all part of the civil rights, equal opportunity expansion program. America's Great West, home of the pioneers, and idealism of our founders, isn't spared.

As a boy in grammar school, I considered it a great honor to be the one selected to hold the flag during the morning pledge. Everyone took great care to never let it touch the ground. Tears would fill my eyes as we sang the words to "God Bless America." I couldn't help but weep at the thought that we were so blessed that our Heavenly Father would stand beside and guide our nation through the night with His light from above. Today, grade school teachers in Phoenix, Arizona are debating whether or not to continue to say the Pledge of Allegiance in class. Some teachers claim the Flag of the United States is a sign of discrimination, others say they are "World Citizens," not just Americans. Where does such selective thinking originate -- within the individual minds of educated men and women who have chosen to teach children as a profession -- or within an organization, dedicated to merging the United States of America into USA, Inc.? How do you feel about educators conditioning your children for "globalism?"

Utah announced its "electronic pocketbook" drivers license coming in 1997, and Colorado will vote on November 5th whether or not to tax religion, which it is estimated would close the doors on 700 churches. 17 states will vote on initiatives labeled "Term Limits" that actually mean "Constitutional Convention!" Utah Governor Michael O. Leavitt tried to force a rewrite of our Supreme Law during the Governors Conference in 1995, but was thwarted by patriots using fax machines. Leavitt, in recognition of his defeat, promised to use more sophisticated means in his next effort. Leavitt followed Perot in misguided efforts to force a Constitutional Convention. Who do they think can better the work of our founders? Does Leavitt, Perot and the Globalist elite backing such a measure believe we will retain our American heritage and rights under a "New World

Constitution?" The Preamble has already been written. It speaks of conceding our sovereignty to a global government "to which we surrender our arms." Cloaking their Constitutional assault behind a popular banner such as term limits is just the latest scum-bucket attempt to overthrow the USA. Most voters won't take the time to read the entire explanation. It is up to you to inform those willing to listen before they unwittingly support a measure taking down America.

On the subject of deceptive legislation, the SPENDING BILL, passed, as a last measure, by the 104th Congress before adjournment, to allow government continuation until the 105th Congress takes office, contained a federal gun control measure. The law prevents firearms within 1,000 of a school. Caveats allow for guns in homes, guns with persons who have valid permits, and certain movement of other weapons. Most invasive is allowance of federal police to conduct check point search of

persons and vehicles within the gun prevention zone in violation of the Second and Fourth Amendments. Great Britain announced on 17 October that all handguns will be banned throughout its empire (New Zealand, Australia, Ireland, Scotland, island states, et al. Only .22 pistols will be allowed for Olympic sport shooting and these must be locked away in an approved gun club. In Australia, the Prime Minister, John Howard, told a nationwide TV audience that ALL semi-automatics

In 1992 Clinton said - "It's the economy, stupid!" Now to Clinton I say - It's the FED, stupid!

including .22 rifles are banned. Get ready America!

Network TV now has 22 prime time homosexual sitcom stars with a new lesbian lead planned for ABC and Disney's Ellen DeGeneres (Morgan). What if Lucille Ball (I Love Lucy) and her friend Ethel, or Hazel and Patty Duke would have been lesbian lovers; Perry Mason and Paul Drake, Andy and Barney, Gomer and his Sergeant Carter, all queers? YUK! But that is what young people are seeing today: Laverne & Shirley, Melrose Place, Roseanne, Friends ABC's Spin City and Relativity, Fox's Lush Life, Party Girl, and Party of Five, NBC's Mad About You. The entertainment industry is packed with homosexual writers, and directors -- all signs of the time!

Don't think it is just Hollyweird and New York City. Marie Fortune, founder and director of the Seattle-based Center for the Prevention of Sexual and Domestic Violence cites a survey in which 12% of the clergy responding admitted to having sexual intercourse with their congregates! A 1992 analysis of surveys of Protestant ministers from five mainline denominations show 39% had sexual relationships with congregates! Rabbi Winer, executive committee of Reform Rabbinic, studied the 60 largest congregations in his movement. He found that over a 20 year span rabbinic sexual misconduct resulted in as many pulpit changes as deaths and retirements combined! Experts on sexual misconduct by members of the

clergy estimate the incidence of rabbinic sexual exploitation is about the same as that among Protestant ministers.

As we prepare to vote for local and national politicians, it is as if America has breathing NO3 (laughing gas). Not a single publicized candidate has dared point out that our cities, counties, states, and federal government are bankrupt! The interest on the FED debt exceeds all other expenditures, including National Defense, Social Security, Medicare, and other "entitlements." Our hard earned money paid in taxes is going to Japan and Red China as owners of America's debt. This fact was revealed on national news October 14th. Is it any wonder why China has "Most Favored Nation" trade status regardless of slave labor, forced abortion, and other human rights atrocities! Regardless of empty promises to reduce the "deficit," cut spending, and balance the budget, the debt continues to soar because EVERY DOLLAR PRINTED IS LOANED INTO EXISTENCE AT COMPOUND INTEREST! Mathematics is an exact science. America's debt will continue to mount. The government will continue to increase taxes and find new sources of taxation until the nation's wealth has been sucked completely dry. THIS IS A SIMPLE FACT!

Once nationalism has been replaced by globalism and houses of worship taxed out of existence, how long before families are targeted so that there are only "world social entities" composed of selected DNA implanted into female breeders who produce infants raised by care centers, evaluated, educated, trained, and utilized according to the needs of international industry? Is this God's plan for us? Are we meant to be pawns for elitist? Where will liberty come from when the flag of the United States is hauled down?

There is a place where it will be possible to continue life as America once was. I call it Almost Heaven. The media labels it a Christian Covenant Community made up of right wing militia anti-government radicals. The truth is that our Constitutional Covenant Community consists of Americans who don't hate anyone, will not attack anything, but who have given up on contemporary concepts of world peace, elimination of God through tolerance, and extermination of crime with a disarmed cashless society. We intend to live in peace and liberty apart from those who would be "world citizens." Our home is within a community in north central Idaho away from metroplexes, franchise fast food, bad air quality, vehicle inspections, building codes, Interstates, high-rises, and electronic tellers. We invite all Americans who would remain free to join us. I might add that our community is much like a fine sword. It must be heated, folded upon itself many times before it has the temper strength to stand the test of combat and time. We are still in the lapping stage, but the heat of adversity combined with the coldness of reality will make us hard -- like a Spike.

ANOTHER ONE BITES THE DUST!

October 13th was unlucky for the mis-guided Mountaineer Militia of West Virginia. The leader, Floyd Raymond Looker, and six followers were arrested for a variety of charges pertaining to the planned destruction of a new

\$200-million FBI fingerprint depository at Clarksburg. Looker reportedly agreed to sell blueprints of the facility for \$50,000 to an undercover FBI Agent posing as a Mid-East terrorist! Is there any one reading this newsletter that believes it is alright for any American to sell an Arab terrorist anything that might later be used to hurt other Americans? This is in no way a "militia" action. This is treason! People like Floyd bring great disgrace upon the legal American unorganized militia movement.

In other militia events, the 12 Vipers of Phoenix, Arizona had a dozen additional charges added to those which resulted in their arrest and pre-trial incarceration. The new bill consists mainly of automatic weapon violations. Their trial is scheduled to begin on 19 November. The Freeman are still in jail awaiting trial in Montana despite false patriot claims that they will soon be released. The kindly old pretrial judge from Portland, James Burns, who referred to Leroy Schweitzer as a "supreme justice" has rejected every Freeman motion and warned those filing for the Freeman that they will face contempt of court charges if the "bunkum" doesn't stop. Norm Olsen is a Baptist preacher who founded the Michigan Militia. He was ousted when his staff lost confidence after Olsen said the Japanese Government bombed the Oklahoma City Federal Building in revenge for the Clinton-CIA Tokyo subway sarin nerve gas attack. Olsen met in Harrisonville, Missouri on 28 October with other militia types to form a "Third Continental Congress and Continental Army" to be ready to take over the country when the present government collapses.

A newer group, the Phinehas Priesthood, traveled from Pocatello, Idaho to Portland committing two robberies and three bombings. Three of its members (Charles Barbee, Robert Berry, and Jay Merell), working out of Sandpoint, Idaho were arrested and charged on nine counts by the FBI. They are being held without bail in the Spokane County Jail and were arraigned on 15 October. Phinehas was an Old Testament (Numbers 25:7-8, Psalms 106:30) priest who stayed a plague on Israel that killed 24,000, by slaying with a javelin a man of Israel and heathen woman who were cohabiting. This particular order of "patriot militia" takes root in a book written in the 1980s by Richard Kelly Hoskins entitled VIGILANTES OF CHRISTENDOM. CPA carries the book (800-578-7124). Hoskins also wrote OUR NORDIC RACE. The FBI says they haven't unearthed all of the suspects and believe what's left to be associated with Pastor Dave Barley's America's Promise Church at Sandpoint. I know Pastor Barley and believe him to be a good, if racist, man. Dave says he has nothing to do with the Phinehas Priesthood members arrested.

Please don't be dumb! Don't allow anyone to lure you into attending a bomb building session for any reason. Don't allow anyone to talk you into associating yourself in any way with an illegal automatic weapon. The people who would have you become involved in such activities are agent provocateurs. Their job is to get as many innocent Americans as possible to commit in some way to an unlawful act. Generally speaking agent provocateurs come from two basic groups: felons and functionaries. The FBI, for example, has 6,000 professional officers that were employed as "Counter-intelligent Agents"

prior to the fall of Communism. These personnel are now used for everything from investigating graffiti to enticing you to break gun laws. An undercover FBI agent led the Freeman leadership into a capture trap. Felons will many times opt to work as undercover snitches to gain court favors. It was such a person who convinced Randy Weaver to saw off a shotgun. Felons must produce, or rapidly lose their legal luster. I believe we had such an individual as part of our covenant community until I exposed his skullduggery. Once the light was on him, he fled.

As a weapons and tactics expert, I can assure you that there is no need, or advantage in having a machine gun -- especially one that is not properly registered. The penalty for an illegal gun, silencer, or bomb is 10 years -- for each count. You do not need hand grenades for self-defense which recently entrapped a poorly advised northwest militia group. Remain within the law, use our SPIKE training and preparation that will allow your group to help Americans in time of disaster when the government can't or won't. There is no need for a Rambo "Firstblood" approach to safeguarding our Constitutional rights. Such a direction only serves to hurt other Americans and yourself. DON'T DO IT! Our SPIKE program trains you properly in how best to be prepared as individuals and unorganized militia members.

ALMOST HEAVEN TOO! LAND IN IDAHO!

In 1992 I knew what had to be done. I had three years to prepare people for what was ahead. I had to find and make ready a covenant community. In the end we would be required to stand firm for our Constitution, family, and home. In 1993 we started the research to find the safest place in America. By 1994, we knew that our Constitutional Covenant Community would be located in Idaho County above the town of Kamiah. I knew that to insure security we would have to have more than one inter-supportive developed area. Jerry and Mary Gillespie, Claudia, and I pooled our resources and purchased Almost Heaven. An angel provided the means for the larger Shenandoah. Still more Americans wanted a homesite. A supportive land owner allowed us to open up Woodland Acres, Woodland Reflections, and Woodland Acres II which we formed into full service RV lots. Still there was a need for more land. We acquired Flying Elk as a fly-in community with a 3,500-foot runway. The runway is now roughed in and taxiway lots are open to pilots and persons interested in living on the airport. Still we were pressed for more building sites.

Thanks to a second landowner, we are now surveying, building roads, and offering lots for sale on Almost Heaven Too. Our communities face South along the North rim of the Clearwater River valley, north of Kamiah, Idaho. Flying Elk is along the Western most finger of five that constitute our covenant communities with Shenandoah acting as our thumb. The heavily wooded canyons and ravines teem with game. The newest addition, Almost Heaven Too contains an on-the-grid 3,000 sq.-foot home with well, barns and out-buildings for the

family looking for a ready-made home. Every building site is clear with its own stand of pines, fruit bushes, and trees. Heavy game trails criss-cross this beautiful area. A conversation with a local log buyer confirmed the fact that mature Yellow Pine sell for \$3,000, with White Pine going for \$1,000. It is estimated that \$250,000 in selective cut lumber is available from this area -- all being left as is for the benefit of new land owners. 30-acres of this new 200 acres was purchased sight unseen on the day it was announced that we would be opening Almost Heaven Too. This will be the final addition! Get your land while choice lots are available.

In summary: we currently have acreage-sites available at Almost Heaven Too and Flying Elk. There are 10 RV lots. The best 17-acres at Shenandoah is still open -- along with a few homesites at the other locations. Land values will increase as time goes on. You are advised to secure your place now. Call us at 208-935-2918, or write for information at CFA, HC-11 Box 307, Kamiah, ID 83536.

Nov 8-10 we will be in Denver for the Preparedness Expo. Sunday we will select the new lot owner at Almost Heaven. IF YOU WANT A HOMESITE IN OUR COVENANT COMMUNITY, YOU MUST HAVE YOUR 3x5 CARD ENTRY TO US BY NOVEMBER 6. Each entry is \$100. Mail to CFA, Box 307, Kamiah, ID 83536. Only 150 will be accepted. CALL 208-935-2918 FOR INFO.

SPIKE SCUBA IN CABO SAN LUCAS, MX.!

Spike Airborne was everything I had hoped it would be.

Our youngest jumper/pilot was 13, while the oldest was six times that. Only one ankle broke under the strain of flying a tight canopy turn too close to the ground. The Manti, Utah Striker had no collision insurance, but hobbled away restored thanks to generous contributions from his many brothers and sisters of the silk. Liquid sunshine allowed us to conduct night LZ operations in zero-zero fog and extend jump operations throughout a fourth day. The experience will provide endless rainbows and broadened horizons for all who took the plunge. I can't help but relate to the tiny beams of light held aloft by Spikers lighting the runway as I glided the plane into the black, wet fog. Without you we would have been lost. Without us (in an emergency) you might be lost! Together, doing our best, we win. Your lights that night throughout eight takeoffs and landings (Special Forces would never fly in such zero-zero conditions -- but they aren't Spikers) were like beams of hope through the black fog. I know that you will do everything you can to guide us through the adversity ahead. Together -- WE WIN!

Betty Lou Hanson from Andrews, North Carolina took advantage of the storm front, while everyone else was grounded, to practice fast taxi up and down the Jasper runway until the bird accidentally took-off and she had to make the circuit to include a landing in the pouring rain. Altogether, it was an awesome and permanent experience for everyone in attendance -- including a young Jumpmaster who gained more experience in three days than others will in three years -- if you count being regurgitated

upon, thawing out those who froze in the door, and diving after a jumper (my future daughter-in-law) who wrapped herself up in the chute. We all learned something. I learned not to have an English speaking Jumpmaster plead with a Spanish parachutist to "PULL YOUR RESERVE!" when "TOMA LA ROPA DE SEGURIDAD!" would have been so much more effective.

As those memories are filed away, we have another awesome Spike option for those who would get as much mileage out of this life as the laws of physics will allow. SPIKE SCUBA is next! I plan to offer this four day fun fest in February. While most of the world is freezing, those valiant souls who would meet King Neptune face to face will do so in the warm Pacific sun-filled waters of the Sea of Cortez. Regardless of previous experience, or the lack thereof, you will be safely escorted underwater through exciting "specialty" dives -- both day and night.

Besides recreational swims to ogle ocean residents, you will conduct team search and recovery operations, float a sunken object, look at the ocean at night with light, and (optional) conduct a navigation exercise at night -- in the dark! The unique quality of SPIKE operations is that you get legal training with a Special Operations flare. Special Forces Frogmen do it much deeper than any SCUBA diver you will ever meet. As an optional event, I will lead you 180 feet beneath the surface where there is no top, no bottom, only you, me, the ocean, and dark shadows all around. The best part is that every optional dive -- while unique to Special Operations Forces -- will be perfectly safe for all who choose to challenge the deep.

This SPIKE event is for all ages (as long as the equipment will fit) and all Americans who have completed at least one Spike training session including non-resident (video) instruction. I want each of you who want to attend SPIKE SCUBA to get a physician's OK. None of the swims will be difficult, but it will be necessary to "clear" your ears at each atmosphere. Those of you who cannot relieve pressure may still Scuba, but only at a comfortable shallow depth. Remember, every SPIKE session is designed to lengthen, not shorten, your life. Make certain a competent doctor says you are in adequate health to be in and under the water.

Persons interested in attending SPIKE SCUBA should send a \$50 deposit to the Center For Action. Only a limited number of applicants will be accepted. I'll give you all the details as they firm up. Don't worry about a passport -- none will be required. Spike Airborne and Spike Scuba are designed to do more than teach you how to master air and water. You will gain the experience of a lifetime; greater appreciation for God's creation; and confidence to do other things you thought impossible. DON'T MISS IT. Like Airborne, there will only be ONE SPIKE SCUBA!

YOU CAN BE PAIN FREE -

Scribonius Largus, a Greek **YAAARRGH!!** physician, 2,000 years ago wrote about the healing power of standing on a wet beach within 15 feet of an electric eel. In the 1800's doctors used electrotherapy to treat non-union bone fractures. The late 1960's brought advancements in

electrotherapy to allow control of acute and chronic pain. First generation Neuromuscular Stimulators were used to rehabilitate injured athletes and Transcutaneous Electrical Nerve Stimulators (TENS) blocked the body's perception of pain. In the late 1970's another leap forward brought about second generation Microcurrent Electrical Therapy (MET) which accelerated pain reduction and healing. These miracle boxes weighed over 45 pounds, were designed to be used by specially trained physicians and cost thousands of dollars.

Five years ago two Germans (Drs. Erwin Neher and Bert Sakmann) were awarded the Nobel Prize in Physiology for their discovery of how cells control their electric state through tunnel-like structures called ion channels. Their contribution "revolutionized modern biology." "Every cell has 20 to 40 types of ion channel that help it communicate and function." Based on this latest technology and progress in miniaturization, a tiny, inexpensive, patient-friendly third generation unit called the Alpha-Stim 100 was developed in 1993.

Western medicine generally depends upon surgery or chemistry to heal disease and control pain. Thirty years ago Chinese acupuncture was branded quackery by the AMA and FDA. Today any functional or degenerative disease of the body can be treated with bioelectronics. Unlike first generation technology that employed electrical current to mute pain signals, the Alpha-Stim 100 replicates of full range of cellular frequency to heal while easing distress. The Alpha-Stim works because of its ability to stimulate cell growth. Damaged cells do not function properly. The Alpha-Stim furnishes the messages they need to become healthy. When you are injured, cells aren't able to gain the nutrients that they need to function properly and therefore cannot heal themselves. The Alpha-Stim restores the natural frequency pulse which not only eliminates pain, but repairs the damage. The Alpha-Stim 100 is the ultimate in electromedicine.

More than 5-million patients have been medically treated with the Alpha-Stim 100. 99.71% reported no adverse side effects. The Alpha-Stim 100 has been effective in treatment of cancer pain, arthritis, fractures, soft tissue injuries, rapid pain control, migraine headaches, muscle tension, inflammation, edema, etc. 97.58% of the patients treated with the Alpha-Stim 100 report "significant results." I have a letter from the Dallas Cowboys Football Club, signed 7 October 1996 by Jim D. Maurer, Head Athletic Trainer, complimenting the Alpha-Stim 100: "They are, and will continue to be, part of our training protocols. The Dallas Cowboys are getting good results, with muscle strains and pain reduction being most evident." Emmett Smith, Cowboy running back, was taken out of the game with a pulled ham string. He was back in the line up in two weeks instead of six. You could see him on national TV wearing the tiny Alpha-Stim 100. The Cowboys have eight units in use (too bad it isn't helping them win this year).

The FDA has just accepted application for use of the Alpha-Stim for the treatment of stress and anxiety (Cranial Electrical Stimulation). One of the Alpha-Stim technicians used the unit to counter his two-year old daughter's whooping cough. The little girl had developed a severe infection and would have

been hospitalized. After one treatment with the Alpha-Stim she was much improved and enjoyed her first nights sleep in over a month. She was soon completely recovered (RE: S. Robinson, Director of Operations 214-417-3079). David Craig, Trainer and Team Administrator of the Indiana Pacers says their first application of the Alpha-Stim "was for a neuroma in Rik Smit's foot, and it gave almost immediate relief of discomfort. Since then, probably 80% of the players have recognized improvement from the symptoms of strains and sprains by using the Alpha-Stim 100." The Pacers have three Alpha-Stims.

U.S. Air Force Chief of Anesthesia, P.J. Lashley-Alder writes: "Our Pain Management Clinic has 25 patients using the Alpha-Stim on a regular basis. These patients all experience either complete or significant pain relief. Many of these patients have failed all other therapies including medication, physical therapy, myofascial injections, nerve blocks, and other techniques." Mitch Lewis, U.S. Olympic Committee states: "As an athletic trainer for the Men's Sculling and Judo Teams, I wouldn't leave home without the Alpha-Stim." Gary Briggs, Head Trainer for the Cleveland Cavaliers uses "the Alpha-Stim to treat knee, back, and shoulder pain, as well as muscle pulls and sprains." Robert O. Becker, MD (orthopedic surgeon) actually regenerated new limbs in frogs!

The Alpha-Stim 100 is 5.3" short, 2.5" narrow, and 1.3" deep with the belt clip attached. It only 5.5 oz light with the 9-volt battery installed. The kit comes packed with Ear Clips, probes, four packages of electrodes, two batteries, saline solution, instructional materials. The unit comes with a 5-year warranty. Triadon includes a blank prescription with their information packet if you call 800-874-2366 or 972-417-3079.

While in Boston the last week of September, I featured the Triadon Operations Manager, Sheldon Robinson, on FREEDOM CALL. Triadon distributes Alpha-Stim. Two physicians called in to relate their astonishing success with the Alpha-Stim 100. Workers Compensation and major insurance plan carriers will often pay for full or partial cost. Triadon can pre-verify your coverage and bill most medical insurance at no cost to you. Triadon will help determine whether or not you are eligible to receive help in paying for a unit. They will even assist you in obtaining the required prescription. CALL TRIADON AT 800-874-2366. Triadon accepts major credit cards.

How much would you give to allow your love ones to be pain free? These new models sell for a minimum of \$827.75 and require a doctors prescription. For THIS HOLIDAY PERIOD ONLY AS MY SPECIAL TO SPIKERS, I will arrange the paperwork and send you a TRIADON unit complete with all attachments and instruction book for only \$495 and **TRIADON HAS ARRANGED FOR EVERY UNIT SOLD, TO CONTRIBUTE \$100.00 TO MINE AND JIM'S DEFENSE FUND!** If you think that medical or workers insurance might provide the unit free of cost, you should contact TRIADON. If you think Workers Comp, or your insurance carrier will pay for the unit, you must mail or fax a Doctor's Prescription to Triadon at Triadon Medical, POB 113269, Carrollton, Texas 75011-9833. Triadon will help you determine if your carrier will pay for the unit and bill them directly at no expense to you. Call them at 800-874-2366.

'96 ELECTIONS - HECKLE AND JECKLE

As you go to the polls on November 5th please choose the right instead of voting for a "winner." Most important are your local officials and county sheriff, followed by state legislators, then national representative, and last of all is your vote for president. The only presidential candidates given media exposure sufficient to win the national election are soulless, bought and paid for foreparts of international interests. Vote, but search your ballot for an alternative candidate that you honestly believe will represent your interests as President, Governor, Senator, Representative, Sheriff, Commissioner, Councilmember, or Dog Catcher. If no such name appears, write in your choice. I'll be writing in "Charles Collins". My prediction remains as it was in 1992 -- Hillary's vegetable will remain in the White House. Fasten your seatbelts, America will be on a fast track toward the new world order.

Both Dole and Kemp are 33d Degree Masons. There is no popular choice for President. Regardless of whether heckle or jeckle is elected, we will see a new primary Cabinet. Looking for a job? Christopher (State), Perry (Defense), Reno (Attorney General), Reich (Labor), Shalala (HUD), Stephanopholus (Communications) and Panetta (Chief of Staff) are all scheduled to get the ax entering the next four Clinton years.

THANKSGIVING

With Clinton and her vegetable still in office, there isn't much in the area of politics to be thankful for. No doubt high on Hillary's agenda is resurrection of her National Health Care plan, Outcome Based Education, and Senate approval of the UN Charter on Rights of the Child. Still, America is the greatest nation on earth. We should all be mindful of God's blessings on us. It is no wonder that the nation is cursed and God probably doesn't want His name on our illegal currency. Take time to pray

this November 28, Thanksgiving, for all we now have. I can guarantee you there will be less this time next year! I've got a lot to be thankful for -- I've got you. What America needs is a change in direction. Our body politick is kept healthy through patriotism and morality. As a righteous people we cannot be conquered. Having lost her virtue, America is willing to surrender her liberty. Join us at Almost Heaven where we will continue to live Free!

Jerry's Corner

OUR FINAL COMMUNITY

We have acquired our final property for our Covenant Communities. We now have 5 communities established or being established BUT the real work lies ahead of us.

As with any worthy effort you will have some trying very hard to make the effort effective and there will be a few who wish not to contribute but to impede.

Whenever something is done in righteousness, there will be some opposed to righteousness. There can only be two sides in this world. Some would lead you to believe that there is a gray area in regards to doing what is right.

In the War in Heaven there were but two sides. You could only be on one side or the other. There was no in between. You had to make a decision and that decision was an eternal one. One-third chose the wrong side. I believe of the two-thirds that remained - many probably weren't real sure and sat on the fence while others took the lead. There are always those in life who wondered what happened as others lead the charge. And there are others who purposely want others to do everything for them.

Probably one of the best movies to come out of Hollywood was "Braveheart" with Mel Gibson. In the movie Gibson is betrayed by his own countrymen, the Nobels, in his quest to free Scotland from England.

William Wallace (Gibson) was on a worthy mission, a mission you would think any Scotsman would support - their freedom. It makes you wonder how anyone could oppose such an idea. Wallace was humble but fearless. He had a dream, a vision for Scotland and he was willing to do it alone if he had too because he knew it was right.

I remember a fight scene where Wallace was beat and knocked to the ground by one of Longshanks (King of England) men. As this enemy lifted Wallace up he noticed a bunch of the king's men coming towards them. Wallace removes the helmet of his enemy and sees that it is one of the Nobel leaders within whom he had a great deal of trust. You could see the pain and agony on his face, not from his wounds, but from the betrayal of his friend.

Later, Wallace is captured because of the Nobels and after much torturing, the executioner silences the crowd so that they may hear, what the executioner believes to be a confession. As we focus on Wallace's face, obviously in a great deal of pain, he yells one solitary, yet very powerful word. From the depths of his soul, the air is filled with this one word.

"F-R-E-E-D-O-M!"

Can we keep it????

What Is The CENTER FOR ACTION???

Center For Action (CFA) was started by Col. James "Bo" Gritz and his wife Claudia in 1989. Bo had spent over 30 years of his life serving in the U.S. Army. He is America's most decorated Green Beret Commander in the Vietnam War. In General William Westmoreland's best seller, "A Soldier's Report" Gen. Westmoreland dedicated a chapter to Bo and called it "THE American Soldier." Bo received 62 citations of valor.

After Vietnam Bo served as Commander of Special Forces in Latin America, Chief of Staff in the Pentagon, Congressional Officer for the Army and more. He holds three Master Degrees including Law Enforcement, Communications and Journalism.

Bo has led numerous POW/MIA rescue operations. It was during one of these that Bo was given the names of high government officials smuggling drugs by the drug Lord Khun Sa of Burma.

It was at this time in 1989 that Bo organized the Center For Action.

In 1991 Bo ran for President and asked Jerry Gillespie to join him as National Campaign Coordinator and currently serves as business partner and associate.

Bo was successful in 1992 of rescuing Randy Weaver and his girls from murder by the U.S. government. Bo testified before the U.S. Senate regarding Ruby Ridge and negotiated with the Freemen in Jordan, Montana.

In 1993 Center For Action started **SPIKE** (Specially Prepared Individuals for Key Events) Delta Force training and traveled through out the nation teaching special preparedness courses. After 3 and 1/2 years of training, thousands of students have attended the training in person or purchased the videos.
